

Kishore Narayanan (he/him)

Student at Johns Hopkins University

Kishore Narayanan is an incoming Master's student who grew up in Illinois. He recently received his bachelor's degree in Neuroscience at the University of Alabama at Birmingham, and is currently pursuing a degree in Artificial Intelligence. Although he has a background in medicine and biological concepts, Kishore is interested in learning more about programming, software development, and artificial intelligence as a whole.

In his free time, Kishore enjoys playing video games, watching sports, and spending time with friends and family. He is excited for the opportunity at JHU to learn and apply skills that will be useful in his future career.

Module 1: Personal Website

This project is a website displaying a basic student portfolio, built using Python, Flask, HTML, CSS, and GitHub. The website demonstrates foundational website development skills, and it will be used throughout the semester to showcase future projects in this course.
